ROUTE 210 WORK NEAR CALIFORNIA STREET TO GENERATE NOISE

State Route 210 construction crews will be anchoring the freeway bridge being built at California Street south of Highland Avenue in San Bernardino, starting September 19. Crews will anchor the bridge by driving steel beams into the ground near the intersection of California Street and Highland Avenue.

Known as "pile driving," this operation will generate repetitive noise throughout the day. Work will start Monday, September 19 and last about two weeks. Work will take place Mondays through Thursdays from 7 a.m. to 5 p.m. and on Fridays from 7 a.m. to 3 p.m. San Bernardino Associated Governments regrets any inconvenience this noise may cause and thanks residents and business operators in advance for their patience.

For more project information, call the Route 210 toll-free helpline at 1-866-HELP-210 or visit the SANBAG website at www.sanbag.ca.gov. SANBAG and Caltrans appreciate your understanding during construction of this new freeway. Please allow extra travel time, follow signs and posted detours, and drive carefully through construction zones.

Remember, Safety: It's no accident!

Please call the Route 210 Helpline for any special access needs you might have or anticipate during construction. If any contractors, machinery or work directly impact your business, please let the construction workers know.
Thank you for your patience and cooperation!
